Enter the Rosters for both teams.

- Rosters may be entered weeks before the game.
- Once a roster has been entered, it will be recalled whenever the same team is chosen again.
 - Type in the jersey number (two digits)
 - Type in Name (First Name followed by Last Name...Capitalize first letters only)
 - Select Grade
 - Select Position
 - Add Player to the Roster
- This also where you would edit information about a player.
- The “Team Rosters” may include any and all players on the team, however, the “Game Rosters” will include only those players (20) rostered for the game.

Instead of typing a roster, you may be able to download some rosters from the RinkWriter web site.
